Mr. Tom Munson
Division of Oil, Gas & Mining
P.O. Box 145801
Salt Lake City, UT 84114-5801

Dear Mr. Munson:

I would like to request an acreage change on our current NOI. The current NOI is for a maximum of 5 acres of disturbance. I would request that be changed to 3 acres. Currently, we do not have plans to enlarge the current disturbed area which is 2.9 acres. Attached is a map showing the foot print of the disturbance from your site inspection. This map can be included with our current NOI documents.

Arrangements have been made for the reclamation bond; I am only lacking approval for the acreage change. Once that approval is received I can finish the reclamation contract and bond and forward to your department.

If you have any questions or requirements for additional information please call me.

Sincerely,

Nephi Sandstone Corporation
